How this manual is organised

The chapters follow the menu on the left side of the screen, from top to bottom, so you can find each page in the order you see it. Every chapter starts with **Where:** the menu path to that page.

Button and menu names are written in **bold**, exactly as they appear on the screen in English. The pictures show fictional example data.

Part	For whom	Address
A. Administrator	The administrator and office staff of the letting company	your-domain
B. Tenant	Tenants and co-tenants	your-domain**/tenant**

"your-domain" stands for the web address where your Krein runs. Krein opens in Dutch: click **EN** at the top right of any screen for English, **NL** for Dutch.

PART A

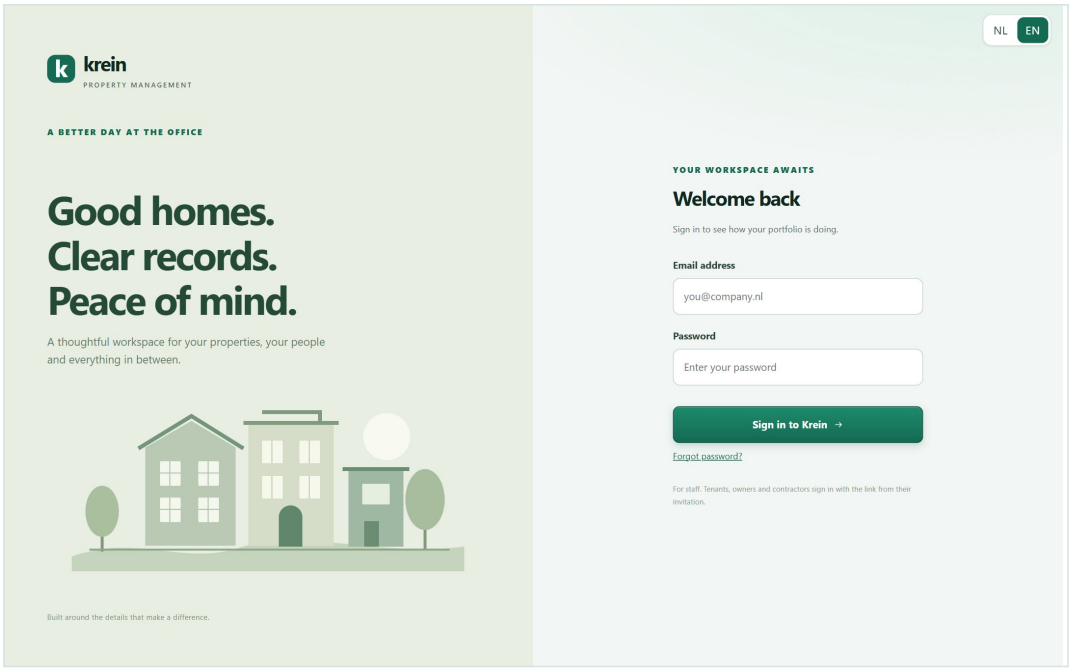

Administrator

Signing in, the menu, and every section from Overview to Settings.

1. Signing in

Where: your-domain

1. Open your Krein address in the browser.
2. Fill in your **Email address** and **Password** and click **Sign in to Krein**.
3. Forgot your password? Click **Forgot password?** under the sign-in form and follow the link you receive by email.

The sign-in page.

You sign out with the button next to your name at the bottom left. Change your own password in **Settings** › **Account security** › **Change my password**.

2. The menu

Where: the left side of every screen

Every section of Krein is in the menu on the left. A number next to an item means something is waiting for you there.

Group	Menu item	What it is for	Ch.
WORKSPACE	Overview	The start page: key figures and what needs attention	3
	All companies	Every company side by side (only with more than one company)	4
	Properties	The homes	5
	Tenants	The tenants, and creating their login	6
	Contracts	Tenancy agreements, and sending them for signature	7
	Owners & portfolios	The owners of the homes	8
FINANCE	Invoices	All rent invoices and who paid	9

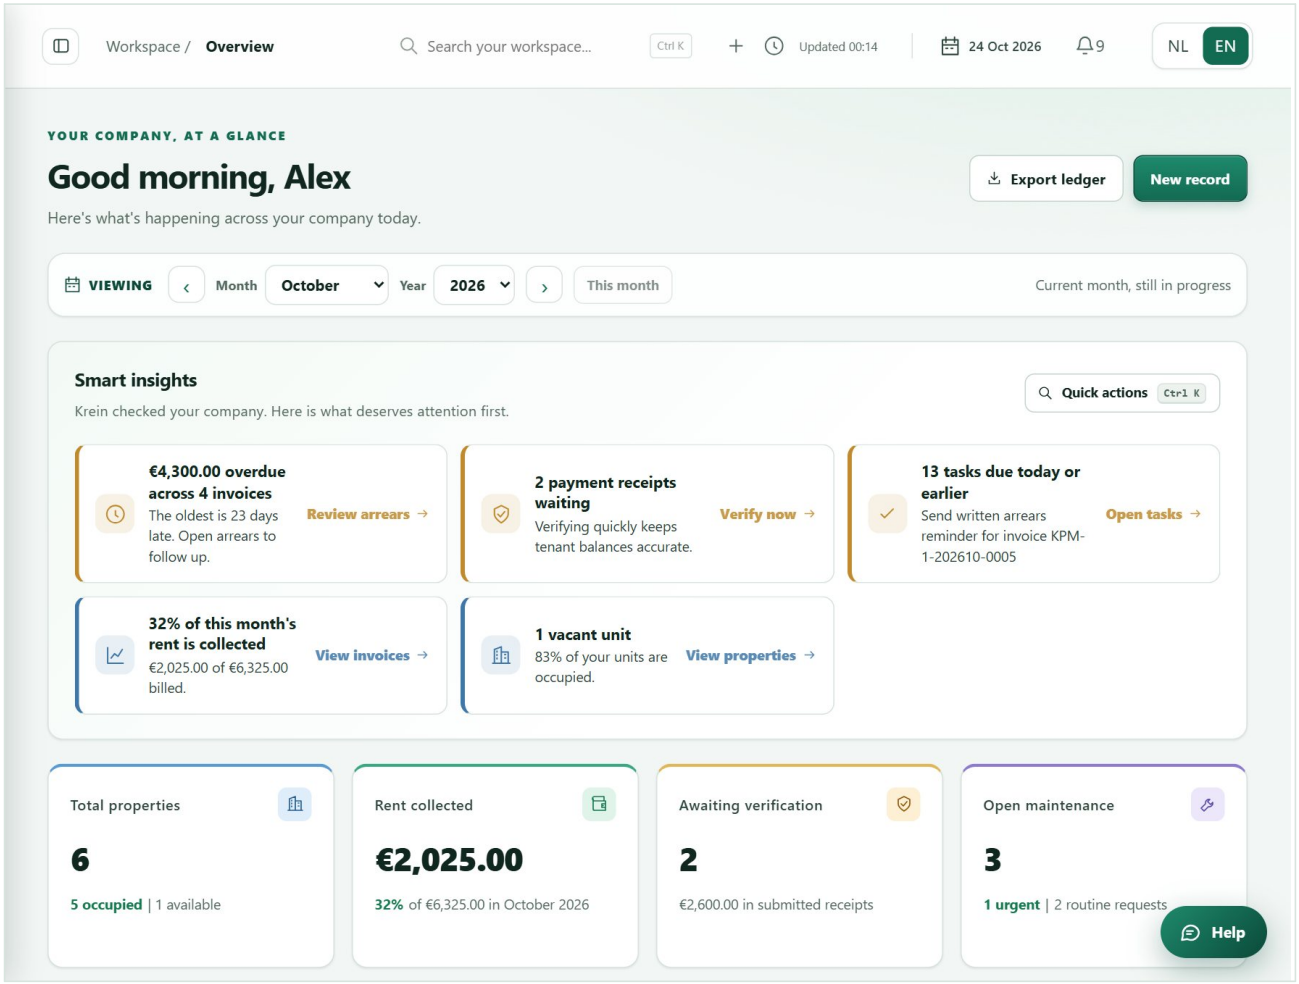

Group	Menu item	What it is for	Ch.
	Payment verification	Receipts and "I have paid" notices from tenants	10
	Bank statements	Upload the bank statement to book payments	11
	Arrears, Deposits, Service charges, Rent & valuations, Owner statements	Other money matters	12
OPERATIONS	Tickets	Repairs, requests and complaints from tenants	13
	Inbox	Personal messages between you and tenants	14
	Inspections, Communications	Inspection reports, and a log of calls and letters	15
	Contractors	Tradespeople, their agreements and jobs	16
	Documents	All files, and sharing them with tenants	17
	Tasks & compliance, Automation, Templates & fields	To-do list, automatic rules, letter and contract templates	18
ADMINISTRATION	Reports & audit	Ledger export and the history of every action	18
	Settings	Company details, your signature, team, tenant access	19

At the top of the screen	What it does
Search box / **Ctrl K**	Find a tenant, home, invoice number or repair, or jump to a page.
+	Quick add: a property, tenant, rental contract, repair or task.
Bell	Notifications: new repairs, receipts, signed contracts, messages. **Mark all as read** clears them.
NL / **EN**	Switch the language.
Help (bottom right)	Ask where to find something; the assistant answers with buttons that open the right page.

3. Overview

Where: **WORKSPACE** › **Overview**

The start page after signing in. It shows how the company is doing today and what needs your attention.

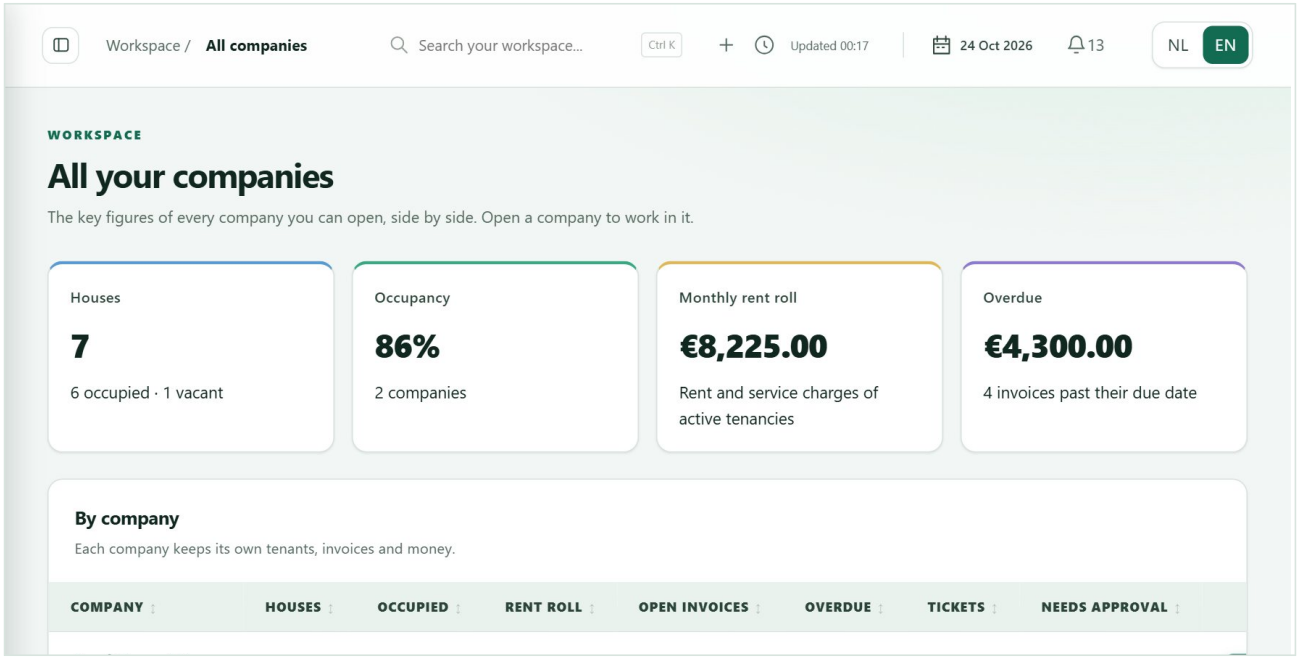

The Overview page.

- **Smart insights**: short alerts with a button, for example "€4,300 overdue across 4 invoices" with **Review arrears**, or receipts waiting with **Verify now**.
- Four tiles: **Total properties** (occupied and available), **Rent collected** this month, **Awaiting verification** (receipts to check) and **Open maintenance**.
- Charts: rent billed against rent collected, occupancy, a month-by-month analysis, expected rent for the next six months, overdue rent by age and ticket health.
- **Your next steps** (open tasks), **Payment verification** (latest receipts) and **Workspace activity** (what was done recently, and by whom).
- Choose another month or year at the top (**Viewing**) to see the figures of that month. **Export ledger** downloads all bookings as a spreadsheet (CSV).

4. All companies

Where: **WORKSPACE** › **All companies**

Shown only when you work for more than one company.

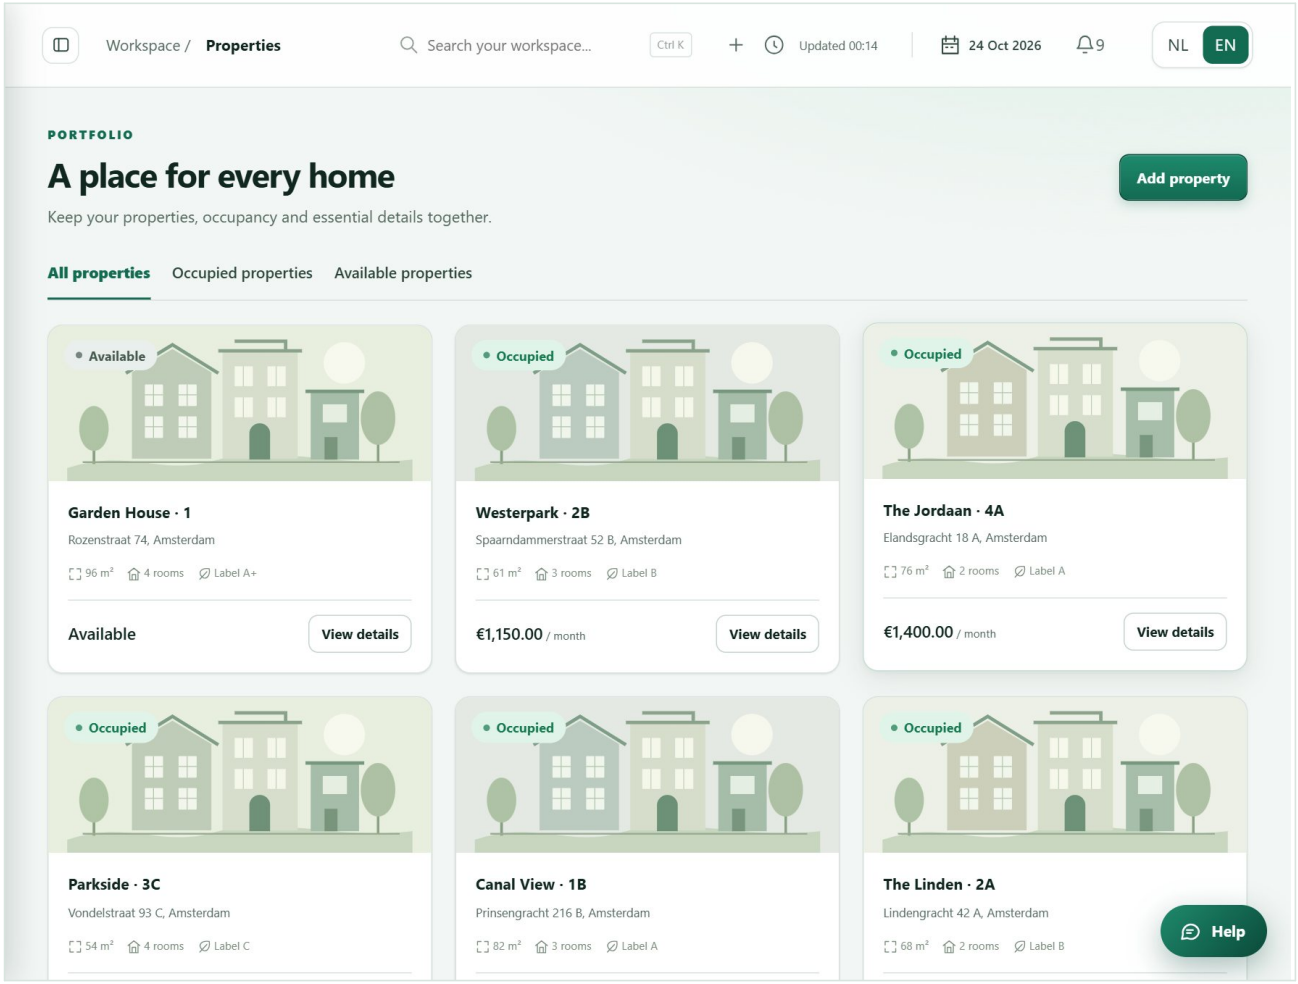

All companies.

- At the top, the totals of all companies together: houses, occupancy, the monthly rent roll and the overdue amount.
- Below, one row per company with its homes, occupancy, rent roll, open and overdue invoices, open tickets and what is waiting for approval.
- Click **Open** on a row to work in that company. You can also switch company at any time with **Your company** at the top of the menu.

5. Properties

Where: **WORKSPACE** › **Properties**

All homes of the company, each as a card with its status and rent.

Properties.

- The tabs **All properties**, **Occupied properties** and **Available properties** show at a glance what is rented and what is free. A home with a contract that starts later shows **Reserved**.
- **View details** shows the address, floor area, energy label, BAG number and who lives there.

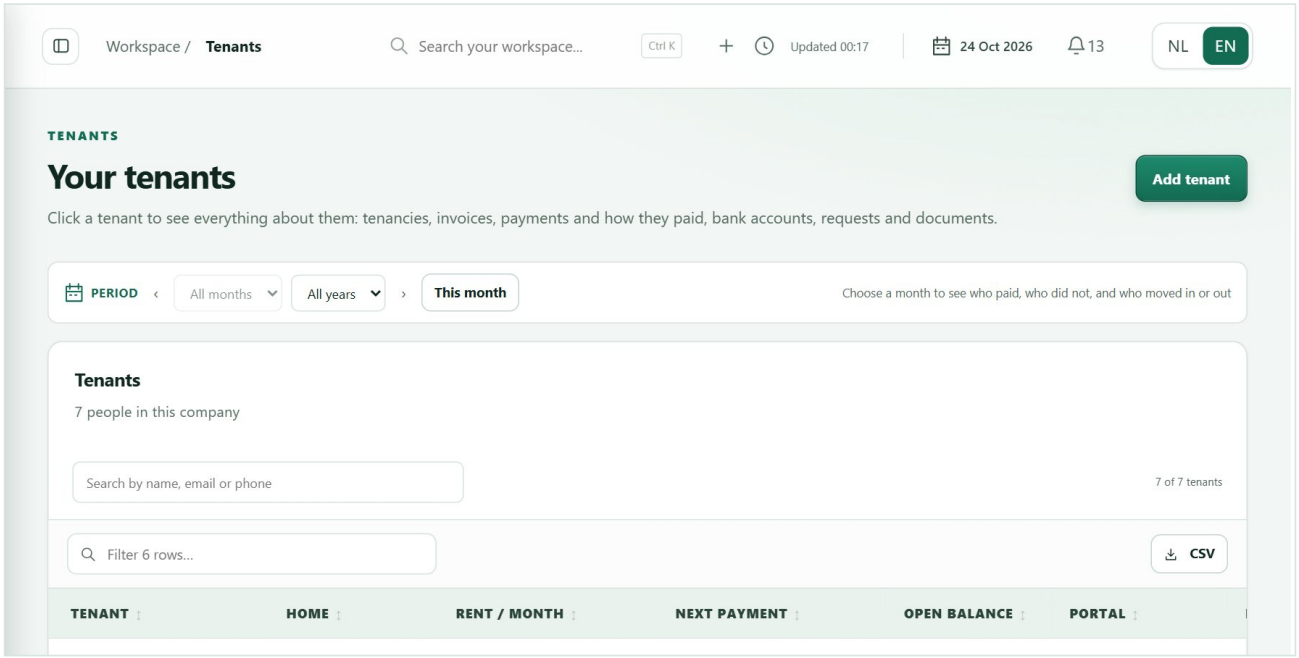

Add a home

1. Click **Add property**.
2. Fill in the **Property / unit name**, **Type**, **Street and house number**, **City** and **Postcode**. Floor area, rooms, energy label and BAG identifier are optional.
3. Click **Save property**. The home appears as **Available**.

6. Tenants

Where: **WORKSPACE** › **Tenants**

The list of all tenants, with their home, rent, next payment, open balance and whether their portal login is active.

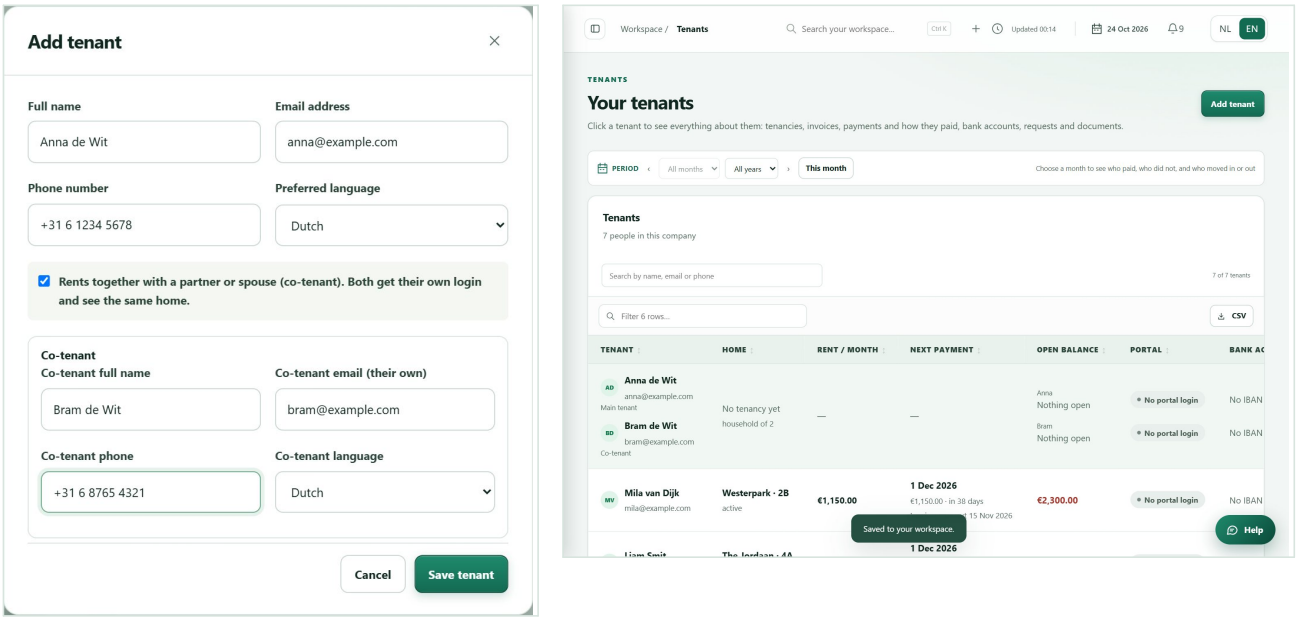

Tenants. Two people who rent together are shown as one household.

Click a tenant's name to open the tenant file: tenancies, invoices and how they were paid, bank accounts, requests and documents. Choose a month at the top to see who paid, who did not and who moved in or out that month.

Step 1: add the tenant

1. Click **Add tenant**.
2. Fill in the **Full name**, **Email address**, **Phone number** and **Preferred language**.
3. Two people renting together (partner, spouse)? Tick **Rents together with a partner or spouse (co-tenant)** and fill in the co-tenant's name and own email address.
4. Click **Save tenant**. The tenant is now in the list.

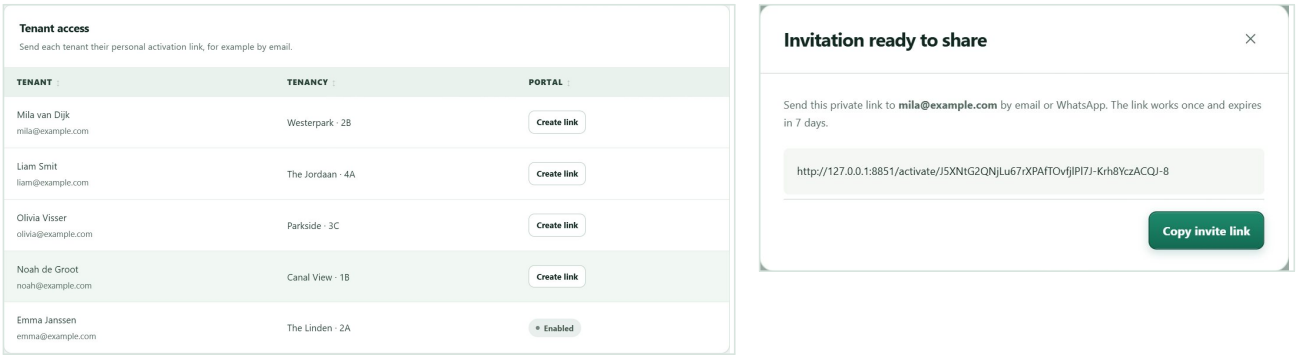

Left: the Add tenant form with a co-tenant. Right: the household in the list.

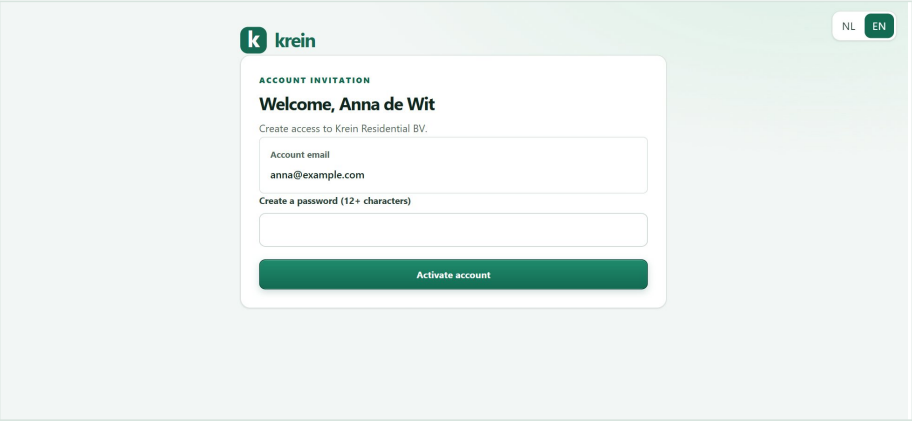

Step 2: create the tenant's login

The tenant needs a login for the tenant portal. Only the administrator can do this, because it is in Settings.

1. Go to **Settings** and scroll down to **Tenant access**. You see all tenants.
2. Click **Create link** next to the tenant. A window shows the personal link; click **Copy invite link**.
3. Paste the link in the address bar of your browser and open it.
4. Fill in a password of at least 12 characters in **Create a password (12+ characters)** and click **Activate account**.
5. The tenant's login is ready, and **Tenant access** now shows **Enabled**. Give the email address and password to the tenant. Do the same for a co-tenant.

Settings › **Tenant access**: **Create link** *for each tenant, and the link window.*

Opening the link: choose the password and click Activate account.

> **Tip** You can also send the copied link to the tenant (email or WhatsApp) so they choose their own password. The link works once and is valid for 7 days. A tenant who later forgets the password: open the tenant file and click **Password reset link**.

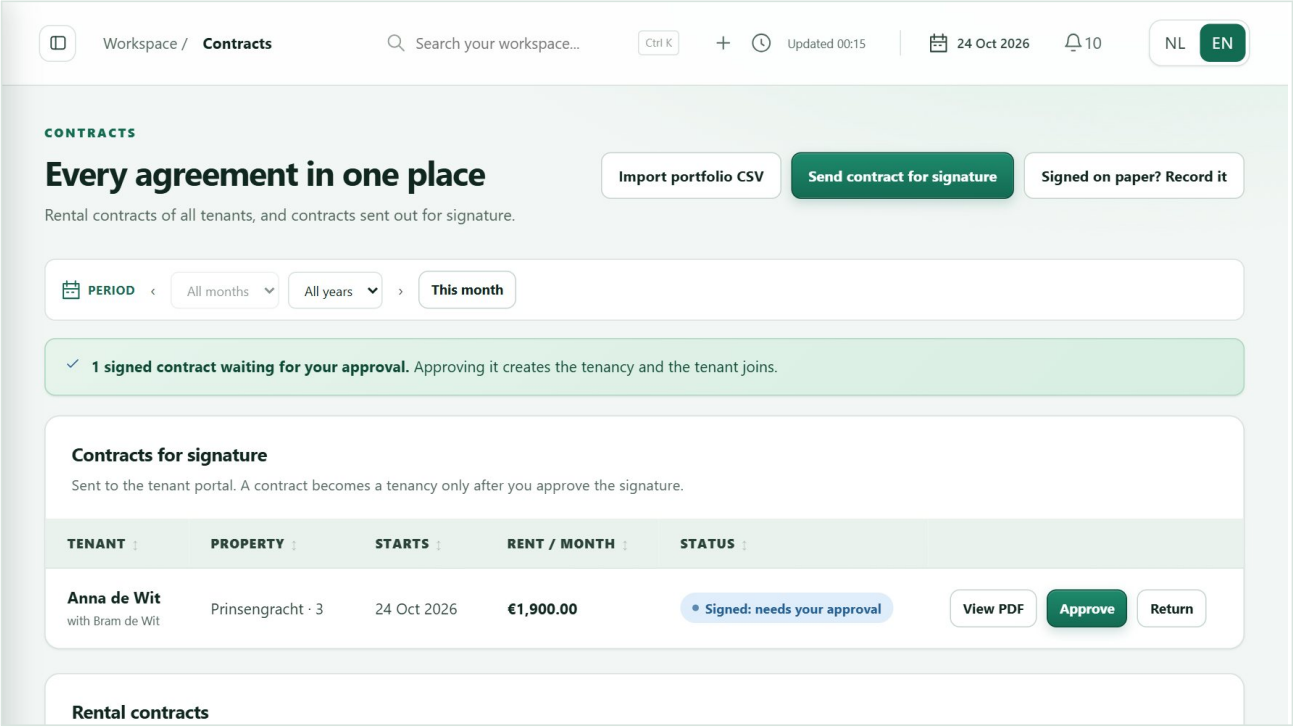

Other buttons in the tenant file

Button	What it does
Edit details	Change the name, email, phone or language.
Invite to portal	The same personal link as Create link in Settings.
Add partner / co-tenant	Add a partner later.
Add IBAN	The bank accounts the tenant pays from; payments from these accounts are recognised automatically.
Export data	Everything Krein holds about this person (privacy request).
Remove	Take the tenant out of the list (only after the tenancy has ended and nothing is owed).

7. Contracts

Where: **WORKSPACE** › **Contracts**

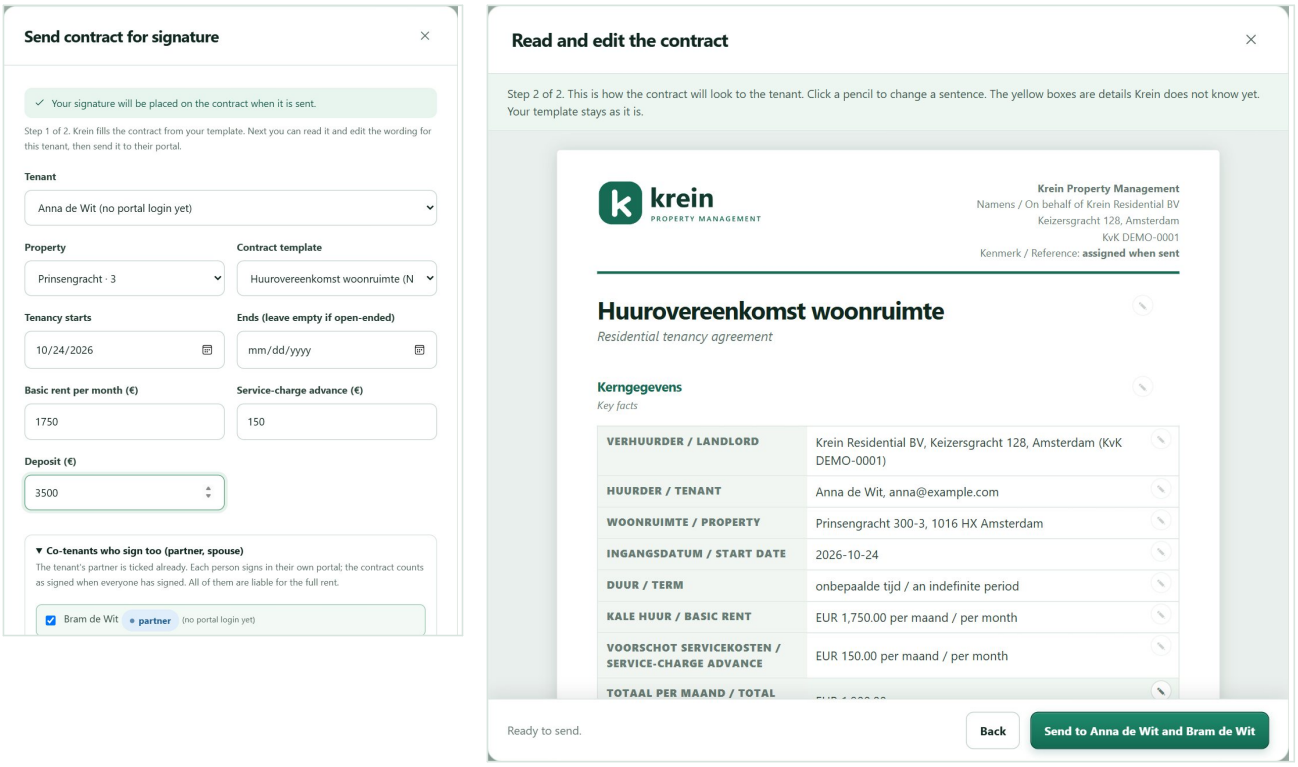

All tenancy agreements, and the agreements out for signature. After a tenant is created, send them the contract from here.

Contracts: at the top the contracts out for signature, below all rental contracts.

Send a contract for signature

1. Click **Send contract for signature** at the top of the page.
2. Choose the **Tenant**, the **Property** and the **Contract template**, and fill in the start date, end date (empty for open-ended), **Basic rent per month (€)**, **Service-charge advance (€)** and **Deposit (€)**.
3. A co-tenant is ticked automatically under **Co-tenants who sign too**. Choose **How do they split the rent?**: **Not split** (one amount, anyone may pay), **Equal parts**, or **Fixed amount for each co-tenant**.
4. Tick which details the tenant must fill in before signing (phone, date of birth, ID, address and more). The IBAN is always asked.
5. Click **Next: read and edit the contract**. Read the contract; click a pencil to change any sentence for this tenant.
6. Click **Send to tenant**. The contract goes to the tenant's portal.

Left: step 1, the details. Right: step 2, the contract as the tenant will see it.

> **Good to know** The contract is signed by you automatically: your e-signature from **Settings** › **Your signature on contracts** is placed on it when you send it. Save your signature there once before sending the first contract.

What happens next

Status	Meaning
Waiting for tenant	The tenant has the contract in the portal. It shows how many have signed, for example "0 of 2 signed".
Signed: needs your approval	Everyone has signed and sent it back. You get a notification.
Returned to tenant	You sent it back with a note; the tenant signs again.
Declined by tenant	The tenant declined, with a reason.

- With a co-tenant, both receive the same contract and **both signatures are required**. The contract is complete only when everyone has signed.
- When it is signed, click **Approve**, check the details and signatures, tick the confirmation and click **Approve and create tenancy**. The tenancy starts, and the signed PDF goes to the tenant's Documents.
- **Return** sends it back with a note; **Withdraw** cancels it.
- Signed on paper? Upload the PDF in Documents (category Contract), then use **Signed on paper? Record it**.
- To end a tenancy: open the contract with **Open file** and click **Record termination** with the end date.

8. Owners & portfolios

Where: **WORKSPACE** › **Owners & portfolios**

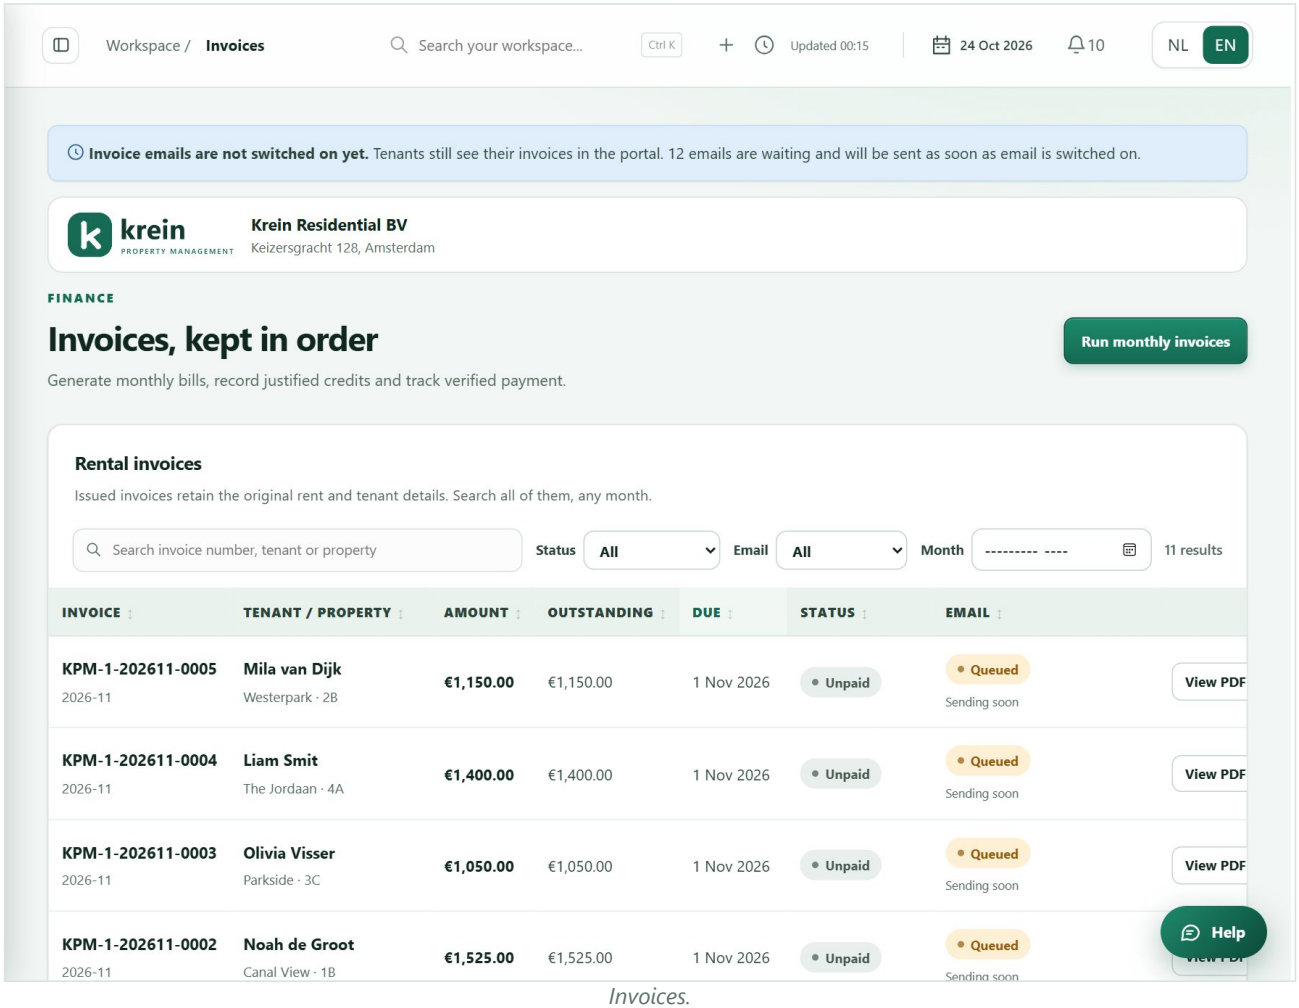

The owners of the homes, grouped in portfolios.

- **New owner** adds an owner; **New portfolio** groups their homes and sets the management fee.
- **Invite** gives the owner a login to the owner portal (your-domain/owner), where they see their homes, rent and monthly statements, read only.
- **Give management access** lets an owner manage their own homes in the landlord portal (your-domain/landlord). **Rent to owner's own account** is for an owner who collects the rent in their own bank account.
- **Share a document** shares papers such as insurance or valuations with the owner.

9. Invoices

Where: **FINANCE** › **Invoices**

All rent invoices of all tenants, with what is paid and what is still open.

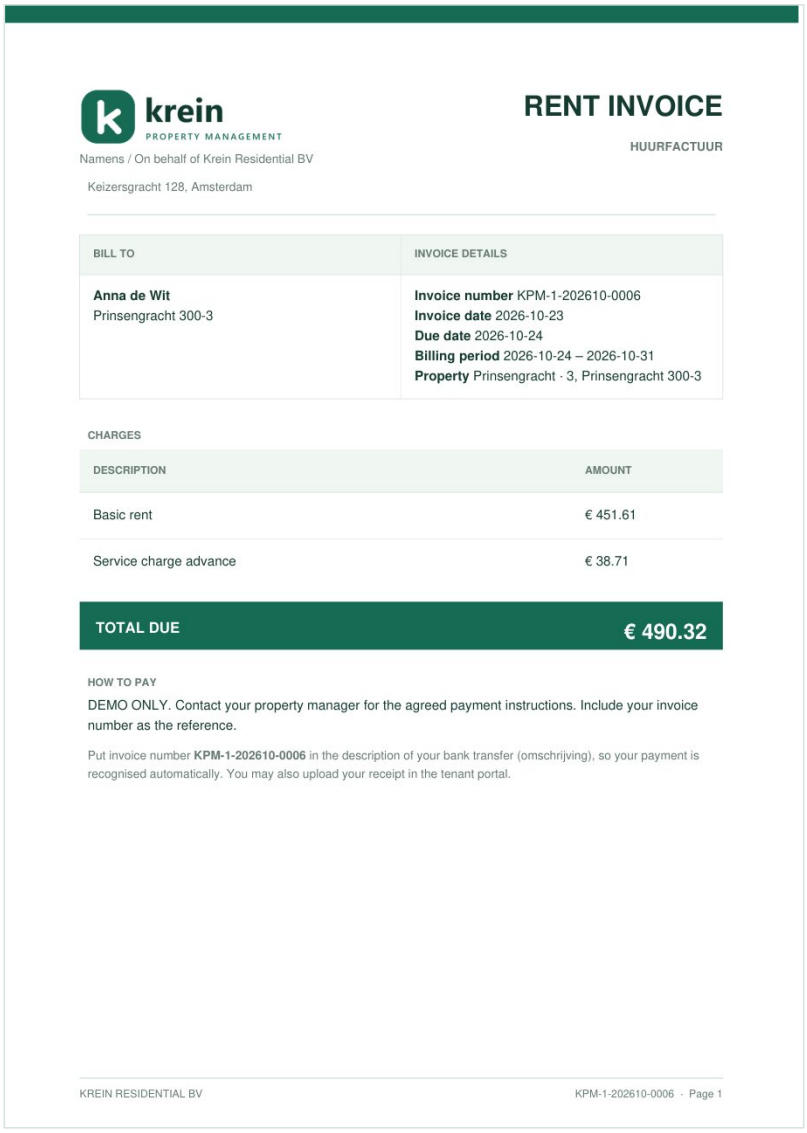

Invoices.

- Krein makes the invoices by itself on the 15th of every month, for the next month. **Run monthly invoices** makes them by hand for a month you choose (never twice).
- Filter by **Status** (Unpaid, Partially paid, Overdue, Paid), **Email** and **Month**, or search by invoice number, tenant or home.

- **View PDF** opens the invoice. **Manage** opens it to check or correct it; every change needs a reason and is kept in the history.
- Each invoice has its own number, for example **KPM-1-202611-0005**. When the tenant puts it in the bank transfer, the payment is booked by itself.

Co-tenants: who paid and who did not

A home rented by two people has one invoice. The invoice shows each person separately, with their own part and whether they paid it, for example "Anna: paid" and "Bram: €950 open". So you see exactly which tenant paid and who still has to pay. The invoice is paid in full when all parts are in.

krein
PROPERTY MANAGEMENT
Namens / On behalf of Krein Residential BV
Keizersgracht 128, Amsterdam

RENT INVOICE
HUURFACTUUR

BILL TO	INVOICE DETAILS
Anna de Wit Prinsengracht 300-3	**Invoice number** KPM-1-202610-0006 **Invoice date** 2026-10-23 **Due date** 2026-10-24 **Billing period** 2026-10-24 – 2026-10-31 **Property** Prinsengracht · 3, Prinsengracht 300-3

CHARGES

DESCRIPTION	AMOUNT
Basic rent	€ 451.61
Service charge advance	€ 38.71
TOTAL DUE	**€ 490.32**

HOW TO PAY

DEMO ONLY. Contact your property manager for the agreed payment instructions. Include your invoice number as the reference.

Put invoice number **KPM-1-202610-0006** in the description of your bank transfer (omschrijving), so your payment is recognised automatically. You may also upload your receipt in the tenant portal.

KREIN RESIDENTIAL BV
KPM-1-202610-0006 · Page 1

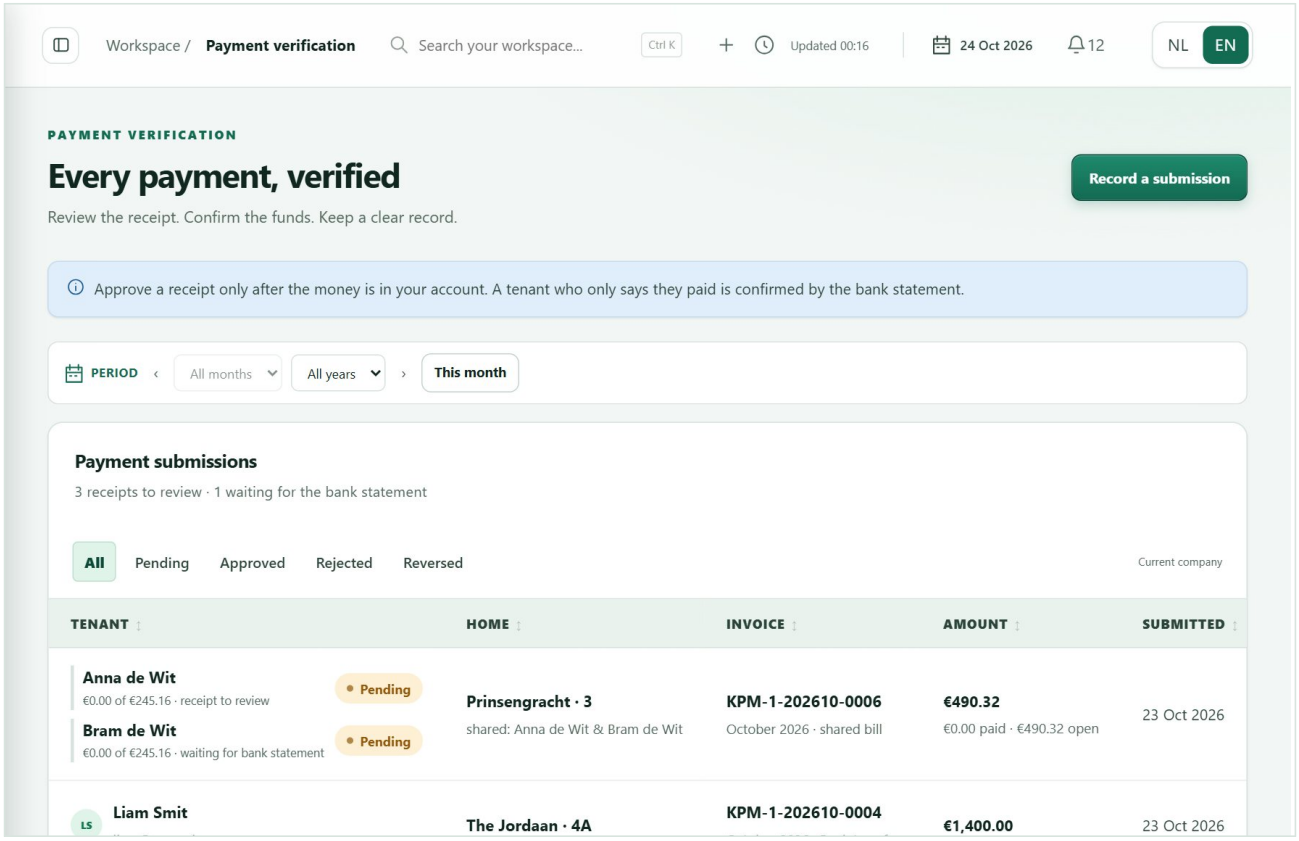

The invoice PDF the tenant receives.

> **Tip** Want to check each invoice before the tenant gets it? Switch on **Settings** › **Review invoices before sending**. New invoices are then drafts until you click **Send to tenant** or **Send all to tenants**.

10. Payment verification

Where: **FINANCE** › **Payment verification**

Payments that tenants report themselves: a receipt they uploaded, or "I have paid".

Payment verification. A shared home shows each person with their own status.

1. Click **Review receipt** on a waiting payment and open the receipt.
2. Check in your bank account that the money has really arrived.
3. Choose **Approve payment** or **Reject submission**, add a short note, tick the confirmation and click **Save review**. The tenant gets a message.

A tenant who only clicked "I have paid" (no receipt) is confirmed automatically when the payment shows up in the bank statement.

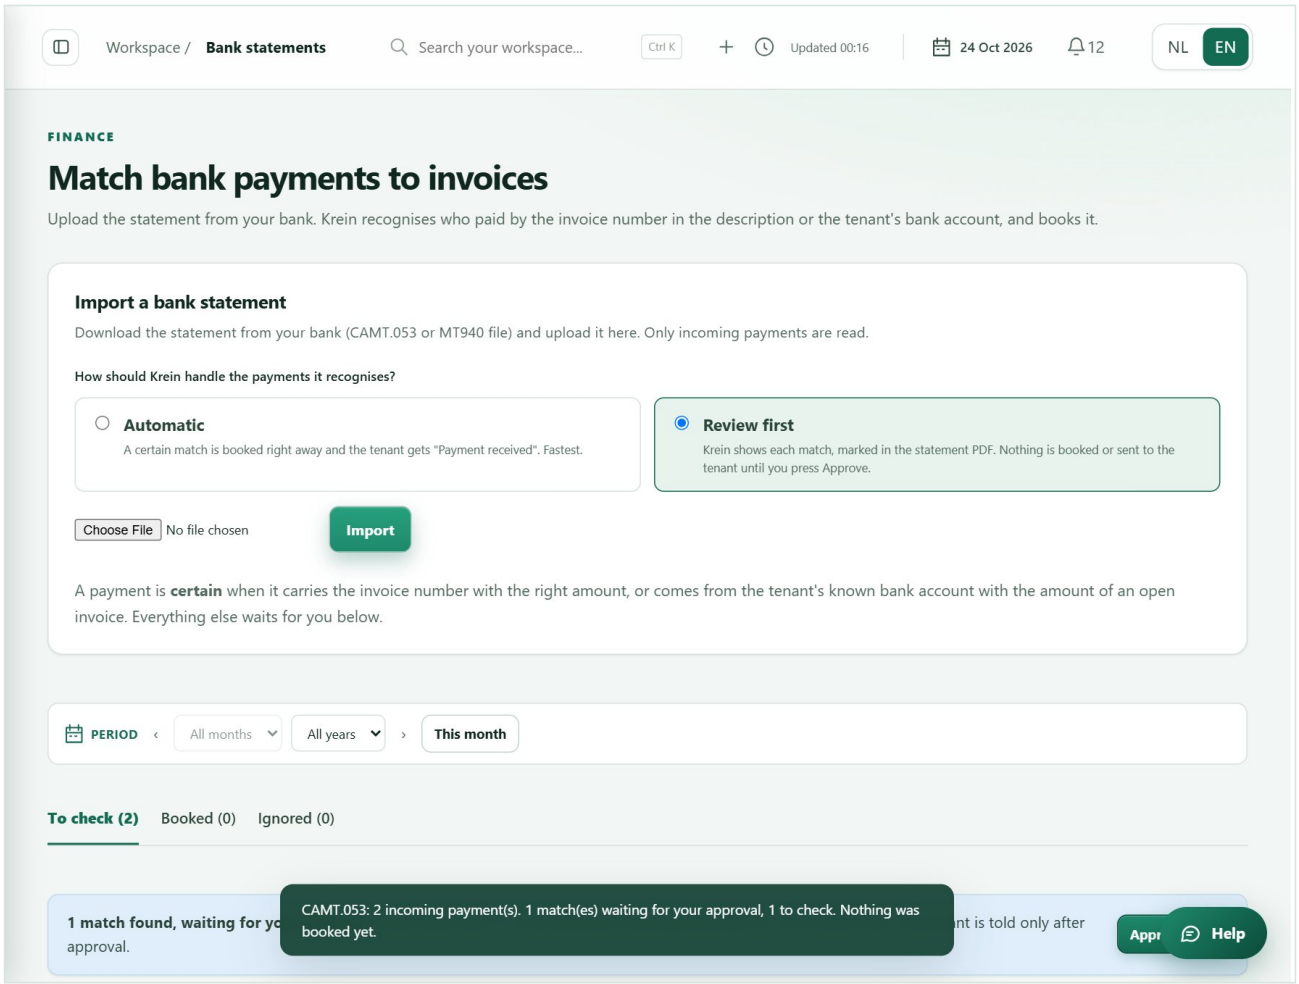

11. Bank statements

Where: **FINANCE** › **Bank statements**

Upload the bank statement and Krein matches every incoming payment to the right invoice.

1. In your internet banking, download the statement as **CAMT.053** (.xml) or **MT940** (.sta / .940 / .txt). All Dutch banks offer this.
2. In Krein, choose how the payments it recognises are handled: **Automatic** or **Review first** (see the table).
3. Choose the file and click **Import**.
4. Open the tab **To check** to handle what Krein could not book by itself.

Option	What happens
Automatic	Payments Krein is certain about (invoice number or known bank account, and the right amount) are booked straight away, without your approval. The tenant gets "Payment received".
Review first	Nothing is booked yet. Krein shows each match, and you approve it yourself with **Approve** (or **Approve all**). Only then is the payment booked and the tenant told.

Bank statements, with Review first chosen.

What Krein shows	What you do
Match found: approve	Click **Approve**, or **Other invoice** if it belongs elsewhere.

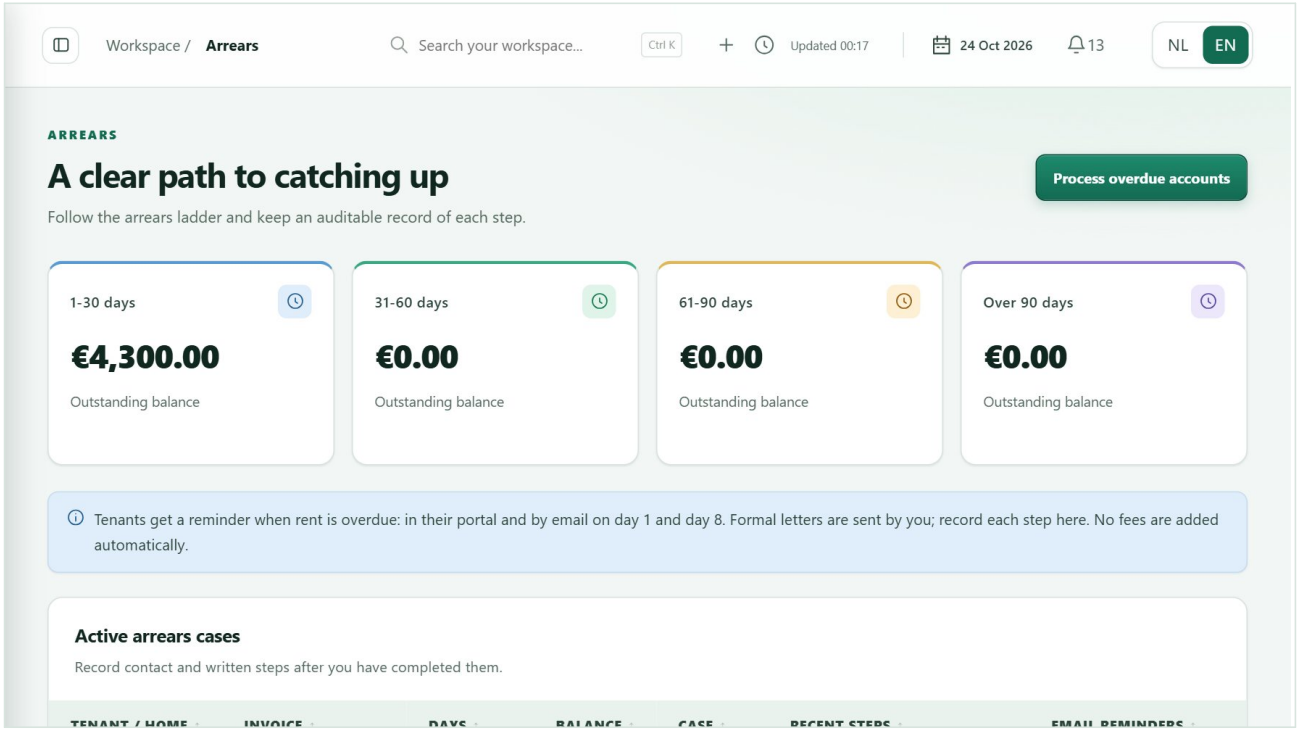

What Krein shows	What you do
Please check	A likely match. Click **Confirm**, check the invoice and click **Book payment**.
Not recognised	**Confirm** and choose the invoice yourself, or **Ignore** if it is not rent.
Booked	Done. **Undo** takes a booking back if it was wrong.

Good to know Uploading the same file twice is safe: a bank payment is never booked twice. With the automatic bank connection (Ponto), set up by your administrator, Krein fetches the payments every hour and you do not need to upload files.

12. Arrears, deposits and other money sections

Where: **FINANCE**: Arrears, Deposits, Service charges, Rent & valuations, Owner statements

Menu item	What it is for
Arrears	Every tenant with an overdue amount, grouped by age (1–30, 31–60, 61–90, over 90 days). Tenants get a reminder automatically on day 1 and day 8. **Process overdue accounts** opens the cases; record each call or letter with **Log step**; agree instalments with **Payment plan**.
Deposits	The deposit held for each tenancy. **Record deposit activity**: deposit received, a deduction (approved by a second person) or the refund.
Service charges	Shared building costs. Group homes into a building, add the costs, and make the yearly settlement with **Draft settlement**; each tenant gets their own statement.
Rent & valuations	Rent history, WWS valuations and the yearly rent increase: **Calculate indexation** or **Propose rent change**. A second person approves it.
Owner statements	The monthly statement for each owner: rent received minus the management fee and expenses. **Generate statement**, approve, publish, then **Record payout**.

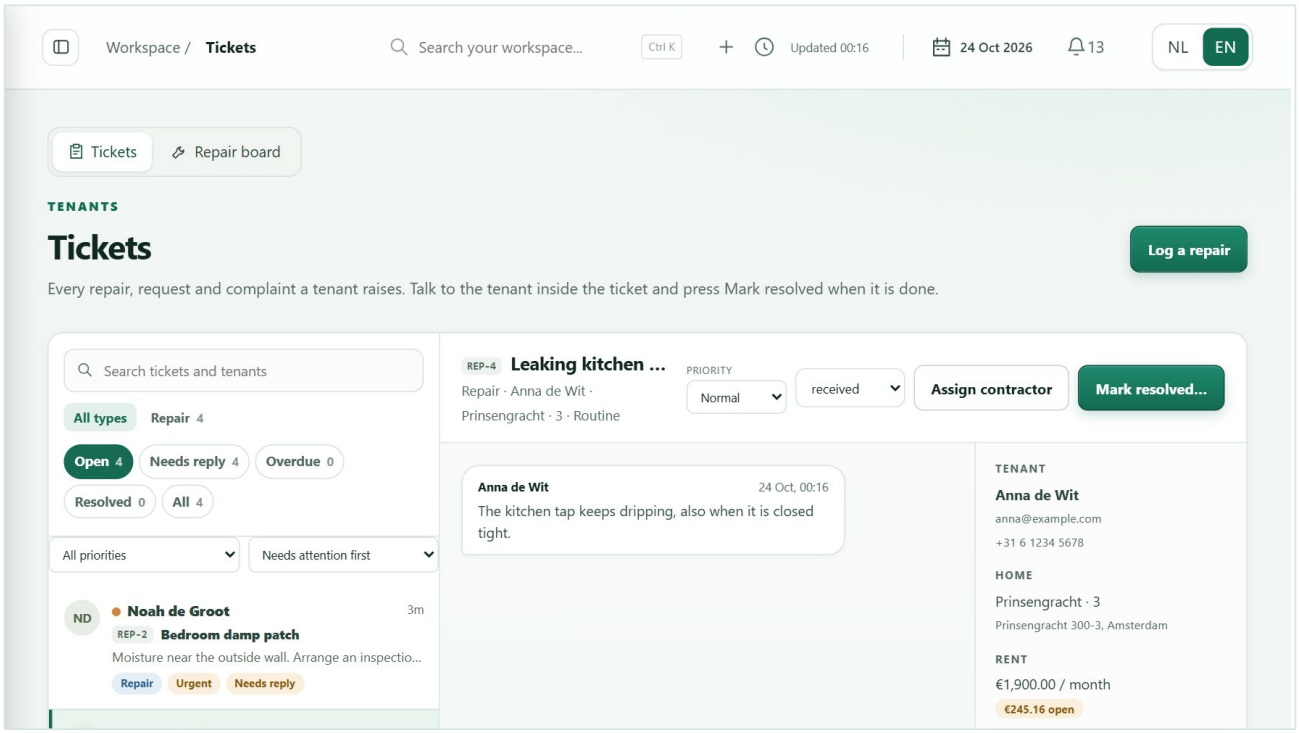

Arrears.

13. Tickets

Where: **OPERATIONS** › **Tickets**

Every repair, request and complaint arrives here as a ticket, with its own number (REP- for repairs, REQ- for requests).

A repair ticket: the conversation in the middle, the tenant and home on the right.

- **From the tenant:** the tenant reports a repair or complaint in the tenant portal with a description, the urgency, photos and a video. It appears here straight away.

- **By you:** did a tenant phone you? Click **Log a repair** and enter it yourself. The tenant sees it in their portal too.
- The tenant follows the status in their portal at every step: Received, Reviewed, Scheduled, In progress, Fixed.

Handle a ticket

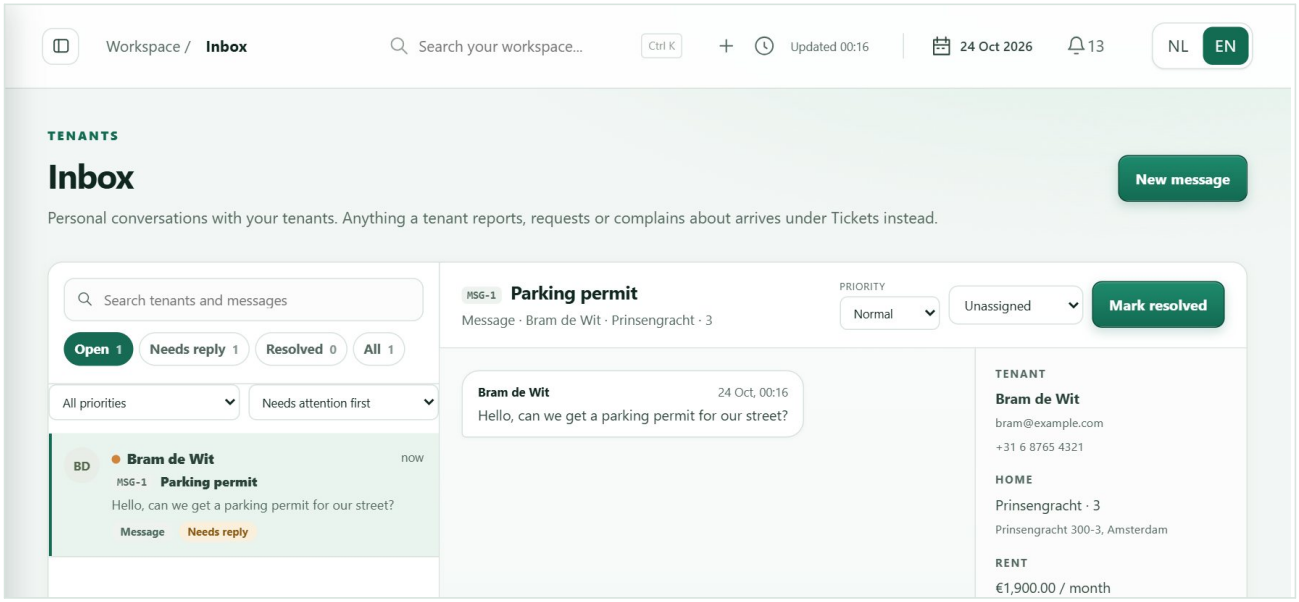

1. Use the filters **Open**, **Needs reply** and **Overdue**, and click a ticket.
2. Write to the tenant and click **Post update** (untick **Visible to tenant** for an internal note).
3. Set the **Priority** and the status. Need a tradesperson? Click **Assign contractor**.
4. When it is fixed, click **Mark resolved…**, add a photo or report of the finished work and click **Save status**. The tenant sees "Work completed" with the photo.

The tab **Repair board** shows all repairs in columns (To arrange, Under way, Completed) and the response deadlines per urgency.

14. Inbox

Where: **OPERATIONS** › **Inbox**

All personal conversations between you and the tenants. Repairs and complaints go to Tickets instead.

The Inbox: the conversation, your reply, and the tenant's details.

- Click a conversation, type your answer and click **Send reply**. When it is answered, click **Mark resolved**.
- **New message** starts a conversation with a tenant yourself.
- With co-tenants, both see the conversation, and you see who wrote each message.

15. Inspections and Communications

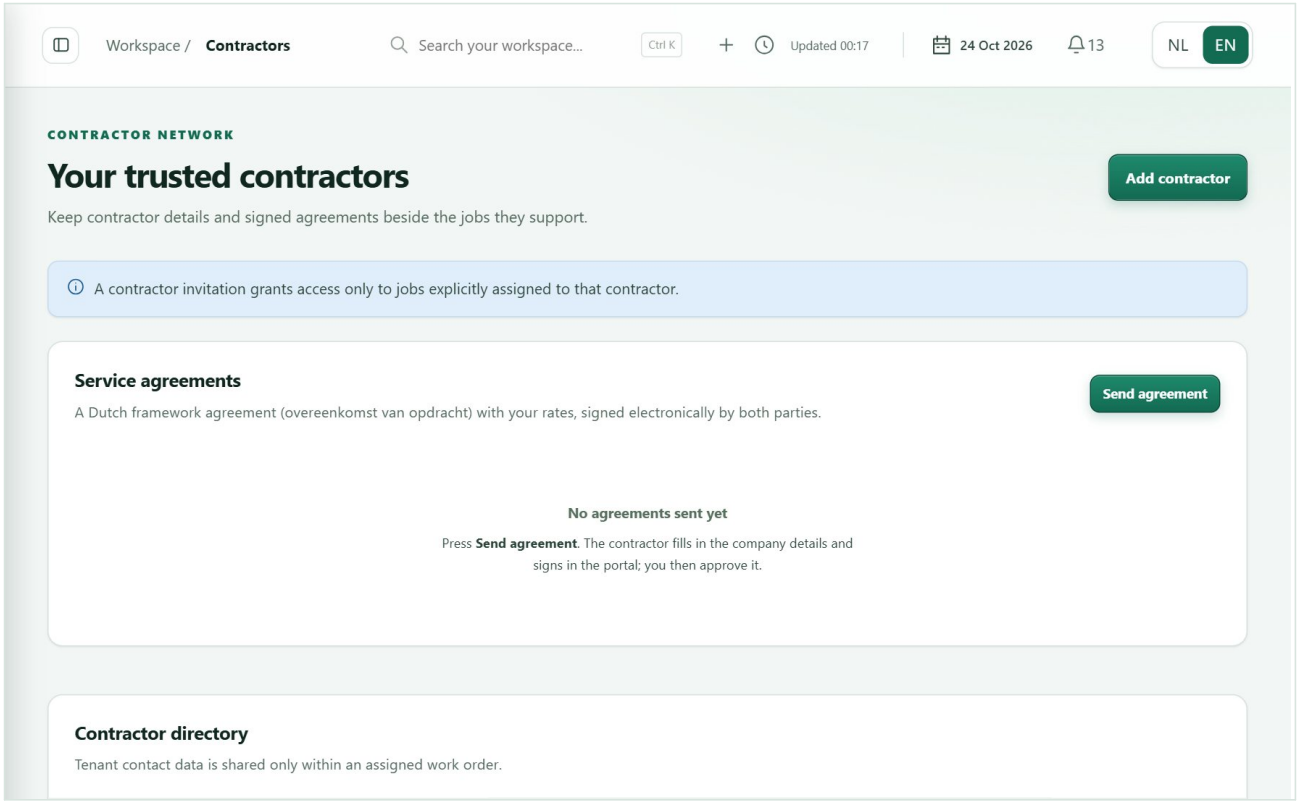

Where: **OPERATIONS** › **Inspections** and **Communications**

- **Inspections**: **New inspection** for a move-in, move-out, periodic or repair inspection. Assign an inspector, add the report and photos, and **Finalize report**.
- **Communications**: **Log communication** records a phone call, letter, email, WhatsApp or visit, so everyone in the office knows what was said. Krein does not send these itself.

16. Contractors

Where: **OPERATIONS** › **Contractors**

The tradespeople who carry out repairs.

Contractors.

1. **Add contractor**: company name, email, phone and trade.
2. **Invite** gives the contractor a login to the contractor portal (your-domain/contractor).
3. **Send agreement**: a service agreement with the rates (hourly rate, call-out fee, payment term, warranty). The contractor fills in their company details and signs online; you approve it.
4. From a repair ticket, **Assign contractor** sends the job. The contractor plans the visit, can send a quote, and reports completion with photos. You check it and close the job.

17. Documents

Where: **OPERATIONS** › **Documents**

All files of the company in one place.

- **Upload document**: PDF, PNG or JPEG up to 10 MB, with a category (contract, inspection report, invoice, legal notice and more) and, if it belongs to one, the tenancy.
- **Share** makes a document visible to the tenant in their portal under Documents. **Manage access** takes it back.
- Signed contracts, repair photos and receipts are stored here automatically.

18. Tasks, Automation, Templates and Reports

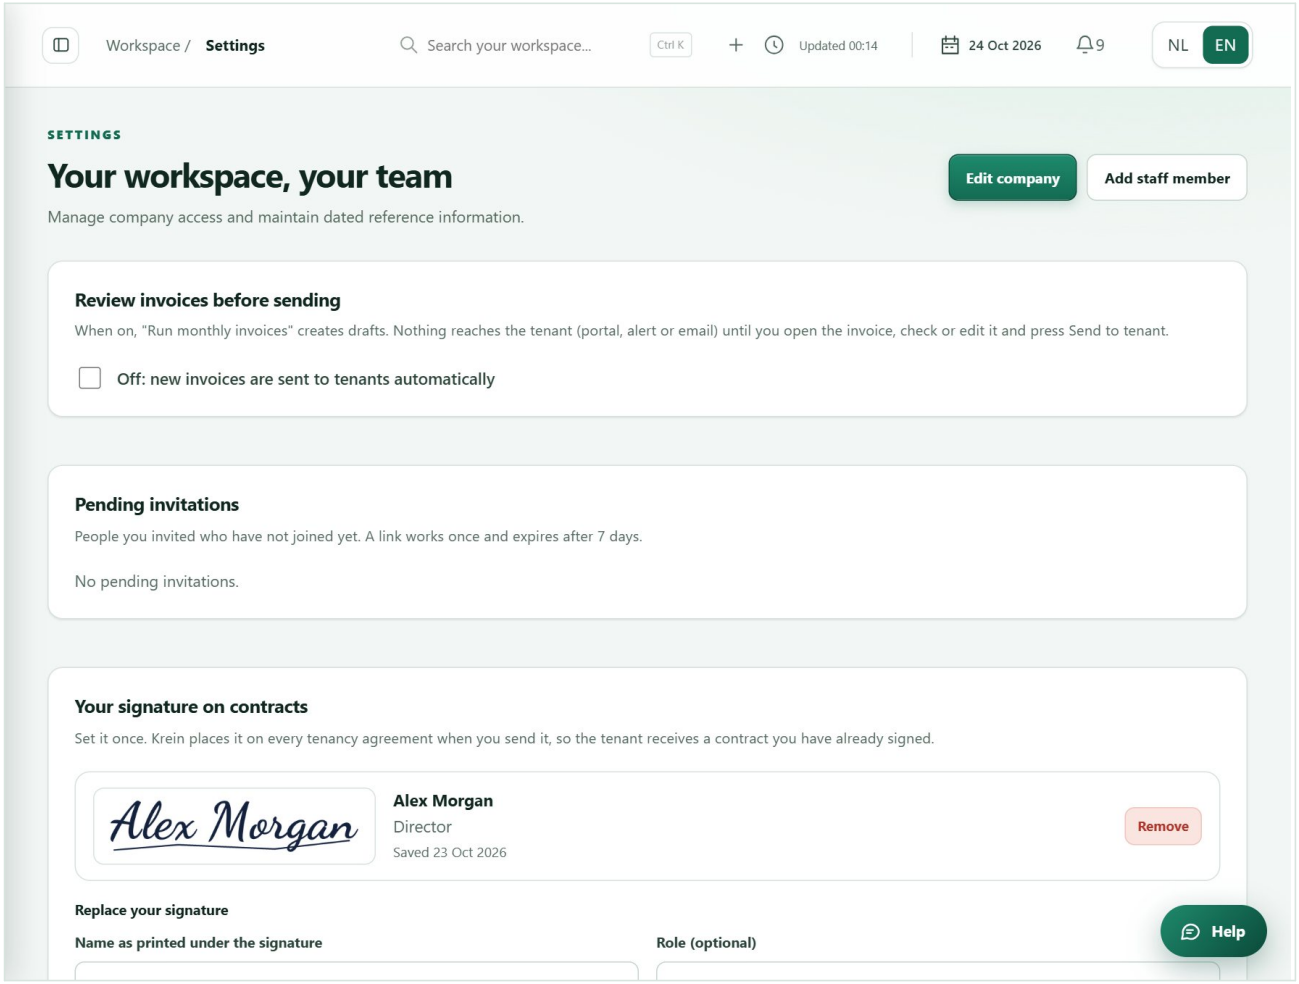

Where: **OPERATIONS** and **ADMINISTRATION**

Menu item	What it is for
Tasks & compliance	Your to-do list with deadlines. Krein also adds tasks itself (for example to call a tenant about an overdue invoice). **New task** adds one.
Automation	Rules such as "when an invoice is 10 days late, create a task". **Add from preset** or **New rule**. Rules only create tasks and notifications.
Templates & fields	Your contract and letter templates with fields such as the tenant's name. **Add starter templates** adds the Dutch/English tenancy agreement. **Generate PDF** makes a letter for a tenant.
Reports & audit	The tenant ledger, **Export ledger** (CSV for your accountant) and the audit trail: every action, by whom and when.

19. Settings

Where: **ADMINISTRATION** › **Settings**

Only the administrator sees this page.

Settings.

Part of the page	What it is for
Edit company	Company name, KvK number, address and payment instructions (IBAN). These appear on every invoice and contract.
Add staff member	Invite a colleague with a role: Manager, Finance, Property or Inspector.
Review invoices before sending	On: new invoices wait for your check. Off: they go to tenants straight away.
Your signature on contracts	Draw, type or upload your signature and click **Save signature**. It is placed on every contract you send.
Team access	Your colleagues and their roles; a reset link for a colleague who forgot their password.
Tenant access	Every tenant, with **Create link** to make their login (chapter 6).
Contractor access	**Create link** for a contractor's login.
Account security	**Change my password**.

PART B

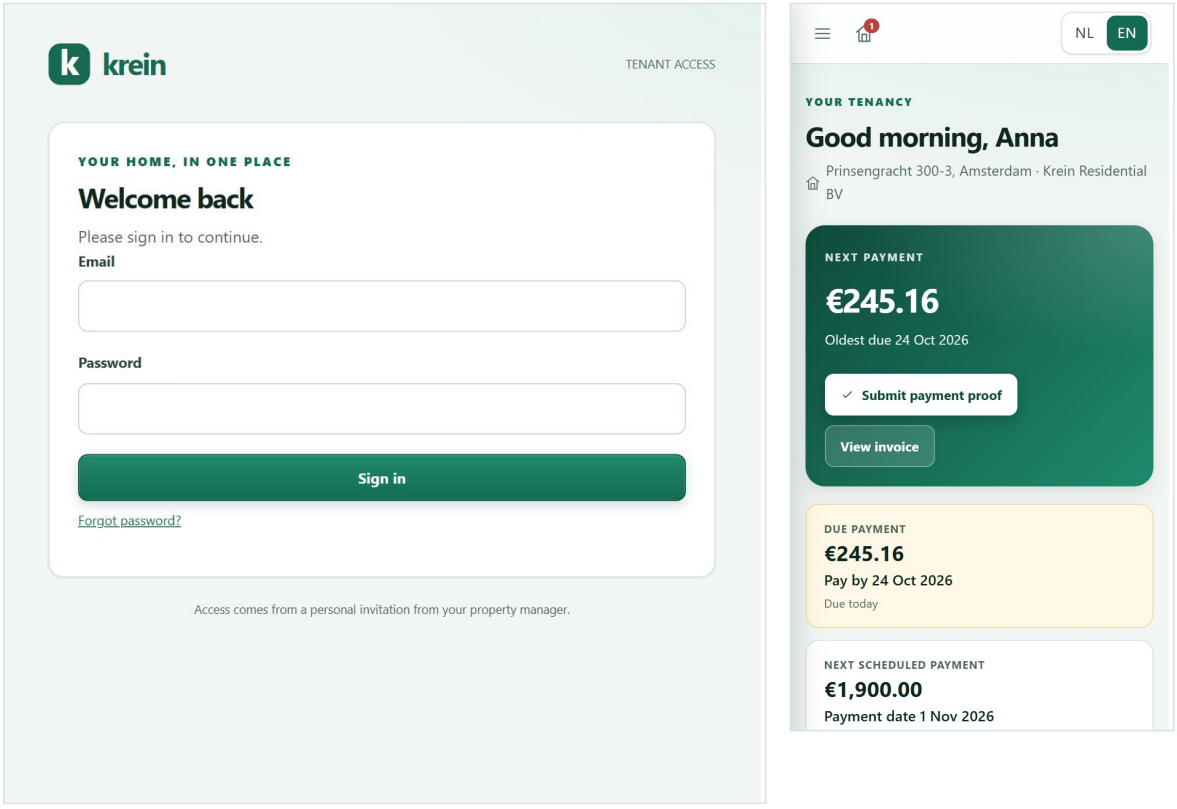

Tenant

For tenants and co-tenants: everything you do in the tenant portal.

20. Signing in

Where: your-domain**/tenant**

1. Your property manager gives you your login (email and password), or a personal link to choose your own password.
2. Go to **your-domain/tenant**, fill in your **Email** and **Password** and click **Sign in**.
3. Forgot your password? Click **Forgot password?** on the sign-in page, or ask your property manager for a reset link.

The sign-in page, and the portal on a phone.

Click **EN** at the top right for English. Change your password with **Change password** at the bottom of the menu.

21. The menu

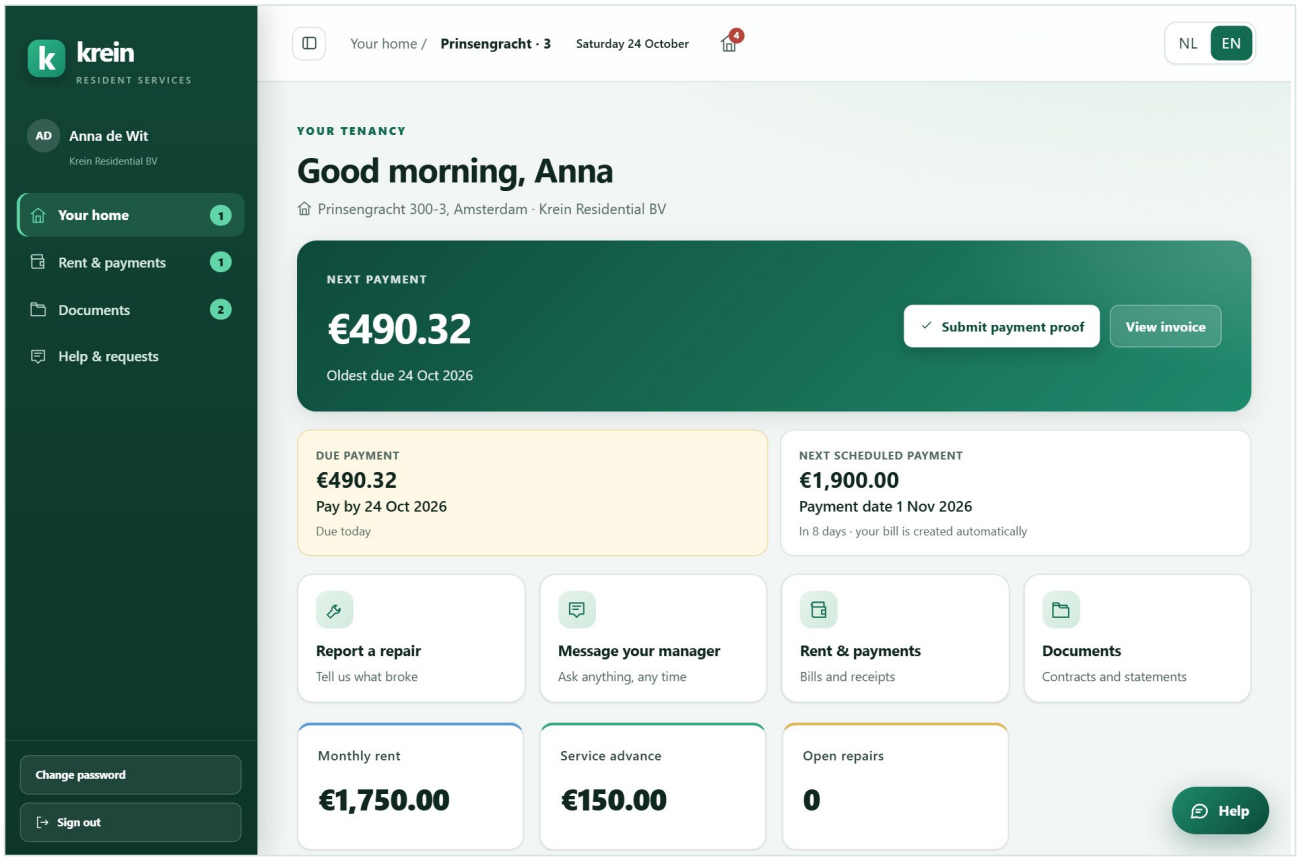

Where: the left side (on a phone: the menu button at the top left)

Menu item	What you do there	Ch.
Your home	What you have to pay and when, quick buttons, your rent and open repairs	22
Rent & payments	Your invoices, paying, "I have paid", receipts, your bank accounts	24
Documents	Your signed contract and other documents	25
Help & requests	Messages, repairs, requests and complaints	26

The bell at the top shows new notifications: a contract to sign, a new invoice, "Payment approved" or an answer to your message.

22. Your home

Where: **Your home**

Your home page.

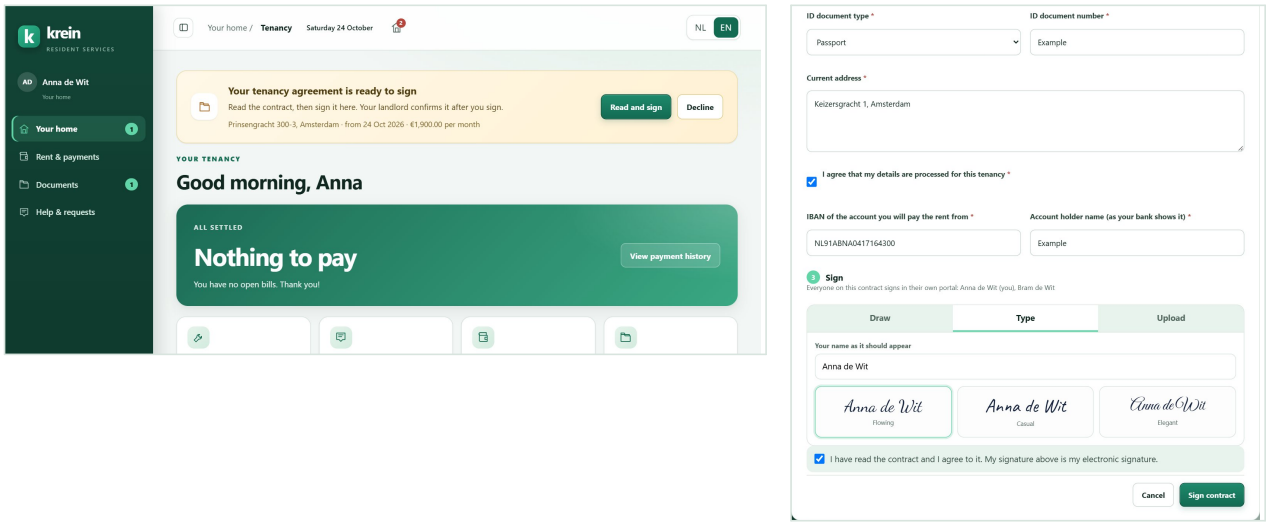

- At the top: the next payment, with **Submit payment proof** and **View invoice**. When everything is paid: "Nothing to pay".
- Quick buttons: **Report a repair**, **Message your manager**, **Rent & payments** and **Documents**.
- Your monthly rent, service-charge advance and open repairs.

23. Signing your contract

Where: **Your home**

When your landlord sends the contract, a yellow bar appears on your home page: "Your tenancy agreement is ready to sign".

1. Click **Read and sign**.
2. Read the contract (or **Open as PDF**).
3. Fill in your details (for example phone number, date of birth, ID and address) and the **IBAN of the account you will pay the rent from**.
4. Sign: **Draw** with your mouse or finger, **Type** your name, or **Upload** a photo of your signature.
5. Tick "I have read the contract and I agree to it" and click **Sign contract**. The contract goes back to your landlord.

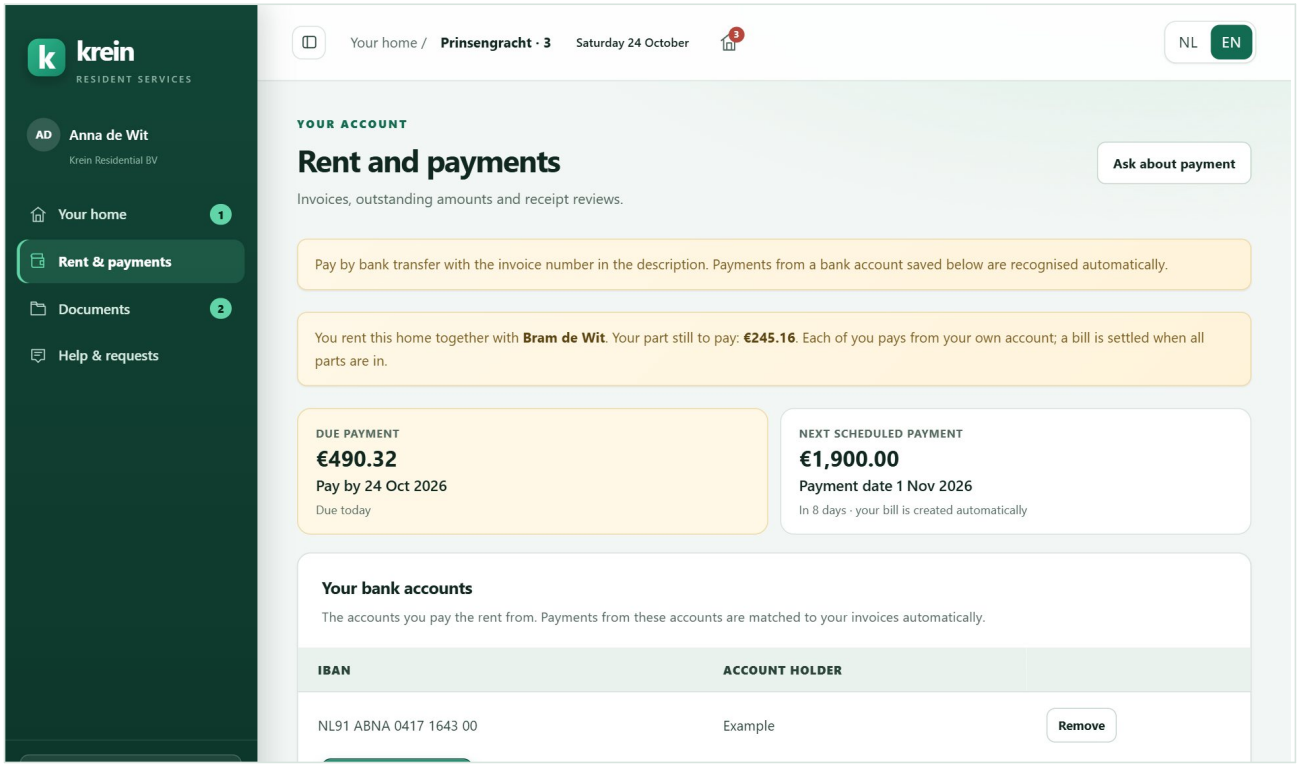

Left: the contract is ready to sign. Right: the signing window.

- The contract already carries your landlord's signature.
- **Renting together?** Each of you signs the same contract in your own portal. It is complete only when everyone has signed.
- After your landlord approves it, the signed contract is under **Documents**.
- Do not agree? Click **Decline** and give the reason.

24. Rent & payments

Where: **Rent & payments**

Every month you get an invoice here (and by email). You pay it by bank transfer.

Rent & payments.

How to pay

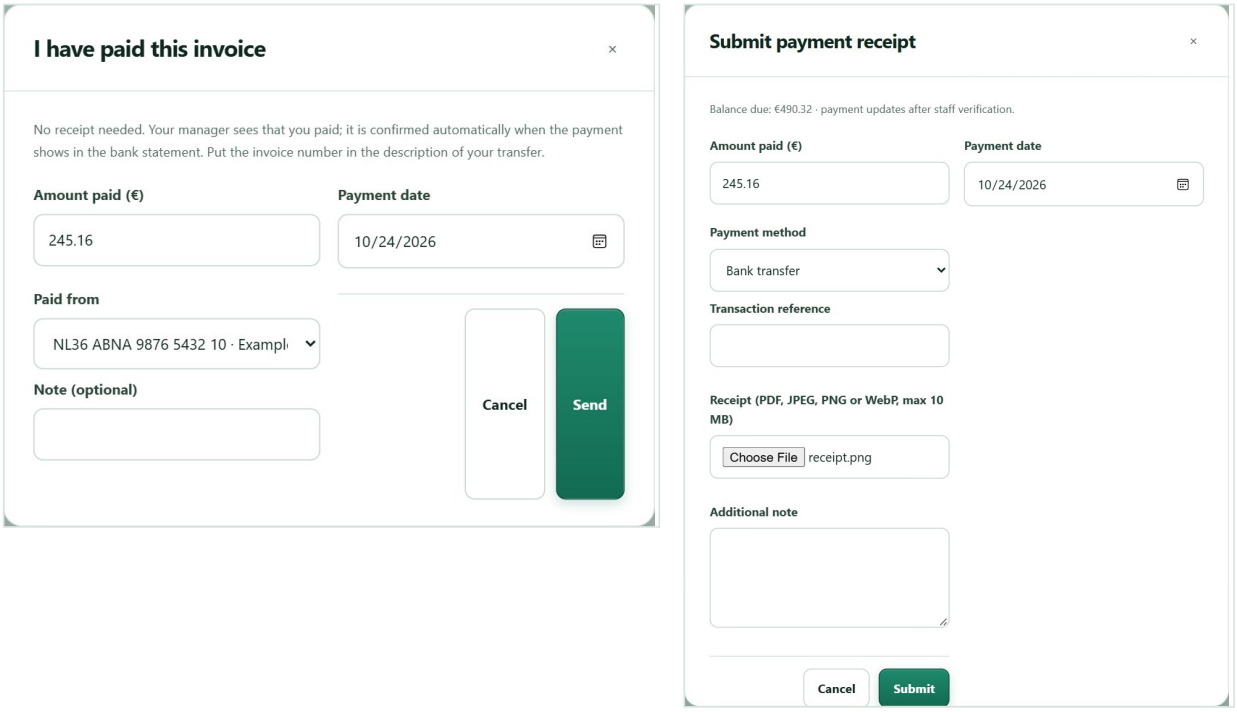

1 Look up the amount, the due date and the invoice number (for example **KPM-1-202611-0006**).

2. Transfer the amount from your bank to the account on the invoice, and **put the invoice number in the description**.
3. When the payment arrives, it is matched to your invoice automatically and you get "Payment approved".

	Single tenant	Co-tenants (renting together)
What you pay	The whole invoice	Your own part, shown as "Your part still to pay" (if the rent is split). If it is not split, either of you may pay the whole amount.
From which account	Your account	Each from your own account
When it is done	When your payment is in	Each sees "Your part is paid"; the invoice is paid when all parts are in

Tell your landlord you paid

- **I have paid**: fill in the amount, date and the account you paid from, and click **Send**. No receipt needed; it is confirmed by the bank statement.
- **Submit proof**: upload a photo or PDF of your bank transfer. Your landlord checks it and you get a message.
- **Add bank account**: save the IBAN you pay from. Payments from it are then recognised even without the invoice number.

Left: I have paid. Right: Submit payment receipt.

25. Documents

Where: **Documents**

- **Your tenancy agreements**: your signed contract (**View contract**).
- **Tenancy documents**: everything your landlord shared with you, such as the service-charge statement or a repair report. Click **View** to open it.

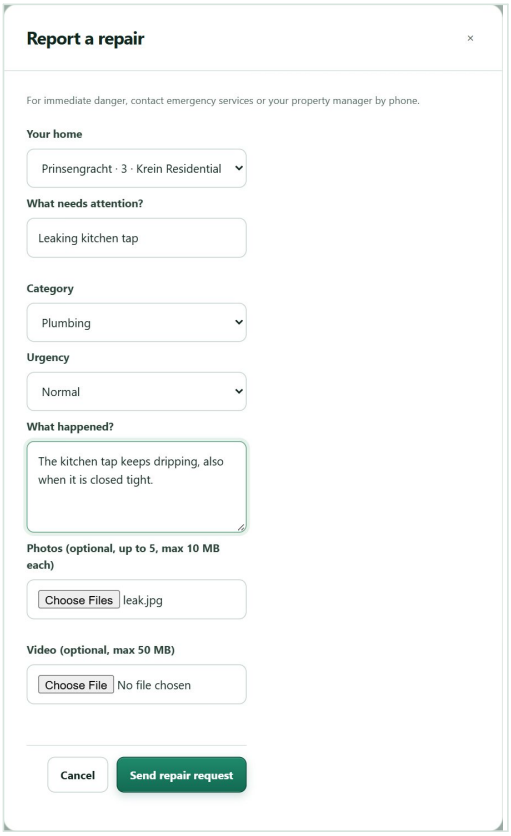

26. Help & requests

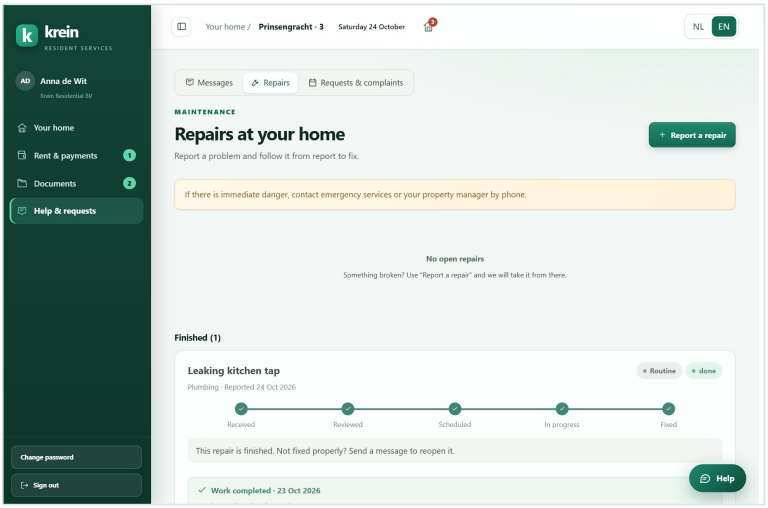

Where: **Help & requests**

Three tabs: Messages, Repairs, and Requests & complaints.

Report a repair

1. Click **Report a repair** (on your home page or in the Repairs tab).
2. Fill in **What needs attention?**, the **Category**, the **Urgency** (Normal, Urgent or Emergency) and **What happened?**.
3. Add up to 5 photos and a video if useful.
4. Click **Send repair request**.

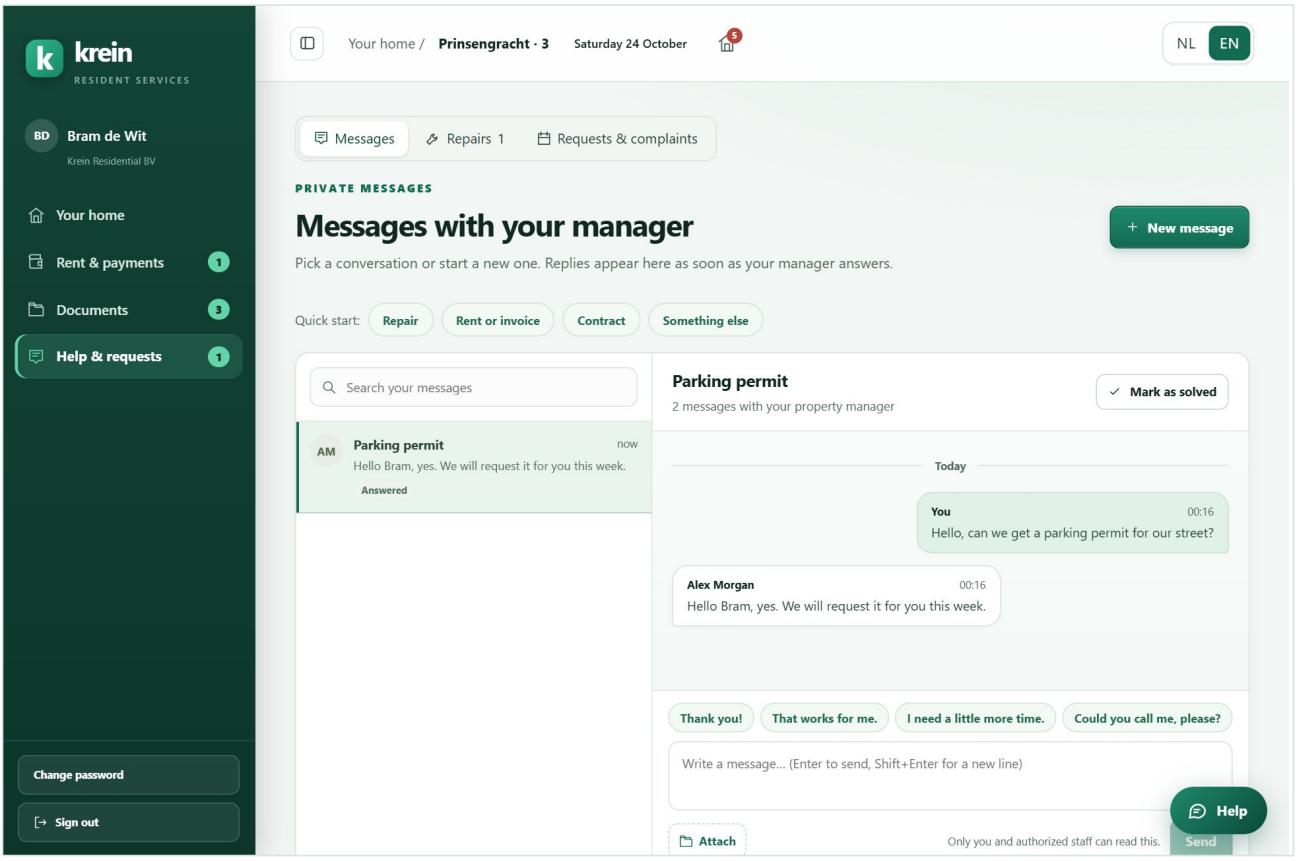

Left: reporting a repair. Right: following the status until it is fixed.

You follow every step: Received → Reviewed → Scheduled → In progress → Fixed. When it is done you see "Work completed" with a photo. Not fixed properly? Click **Send a message about this**.

> **Important** In an emergency (gas smell, fire, a serious leak) call 112 or your property manager by phone first.

Messages

1. Click **New message** (or **Message your manager** on your home page).
2. Write a **Subject** and **Your message**, add a file if you want, and click **Submit**.
3. The answer appears in the same conversation. Reply in the box at the bottom and click **Send**. When your question is answered, click **Mark as solved**.

A conversation with your property manager.

Requests & complaints

Click **New request** and choose the type:

Type	Use it for
General request	Anything you want to ask in writing, for example permission for a change in the home.
Complaint	A complaint about the home, the service or the neighbourhood.
Termination notice	You want to move out. Fill in the date. Your landlord confirms the end date with you.
Payment plan	You need to pay an overdue amount in instalments.

You see the status of each request: Awaiting response, In progress, Resolved or Declined.
